WEAPON REGISTRATION

All firearms or potentially dangerous weapons must be registered with the University Police Office immediately upon a student's arrival. All weapons will be stored in the University Police Office for safekeeping. When a student registers a weapon with the University Police Office, the student will receive a receipt for each weapon registered. When a student wishes to use the weapon (hunting, target practice, etc.) the student will present the receipt with the proper identification before the weapon will be released. The University Police Officer registering a weapon will fill out the proper form and see that the owner of the weapon is given a receipt.
